Docket No. 98N-1265 1954 '99 APR 22 10:28

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I tried to find a hormone replacement which would fit my body's needs. Only when I turned to a prescription specifically compounded for me was the fit right for my body. Prior to using the compounded prescription I suffered from hot flashes, depression, breast tenderness, & weight gain. Through compounding the right mix of hormones corrected my problems. Relief is wonderful.

As an ^{informed} patient, I was able to choose a pharmacy which I'm comfortable working with. I have full confidence in their work. Don't limit my choices to the state in which I reside.
